

The background of the image shows several brown leather armchairs with a tufted design. The chairs are arranged in a row, with the focus on the backrest and armrests. The leather has a subtle texture and the tufting creates a series of diamond shapes. The lighting is soft, highlighting the contours of the furniture.

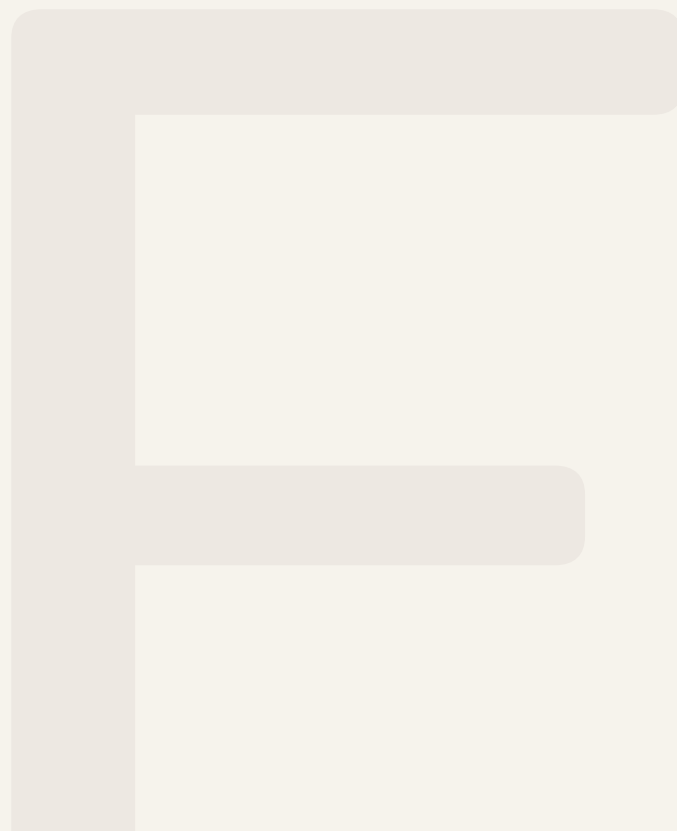

AFP

Classic Contemporary

Classic design is regarded as a style that remains tasteful regardless of time period. We at AFP, a brand known for its modern, minimalist furniture, embark on this quaint style and through a number of carefully curated elements present our interpretation of the classic style. From extended research, beginning with the Italian origins of the style to the many variations that steamed out over the many centuries we established the essence of style, it is this essence mixed with the minimalism we are known for that we present to you as our Classic contemporary line. Our style maintains the antiquity and rich history of the European style but makes it applicable to today. We took the infamous ornaments; wood carvings, precious metals and complex floral patterns and made it new, providing classic contemporary furnishing solutions.

Classic Doors

We produce a wide range of doors at AFP which have secured our illustrious reputation in the industry but here we focus on our classic doors. These doors are set apart with the use of wooden ornaments; profile mouldings, floral corner pieces, engravings and luxurious door handles. We detail our door leaves and architraves with frames of these ornaments, we also offer french doors with glass in several types of sheet glass.

Double french door

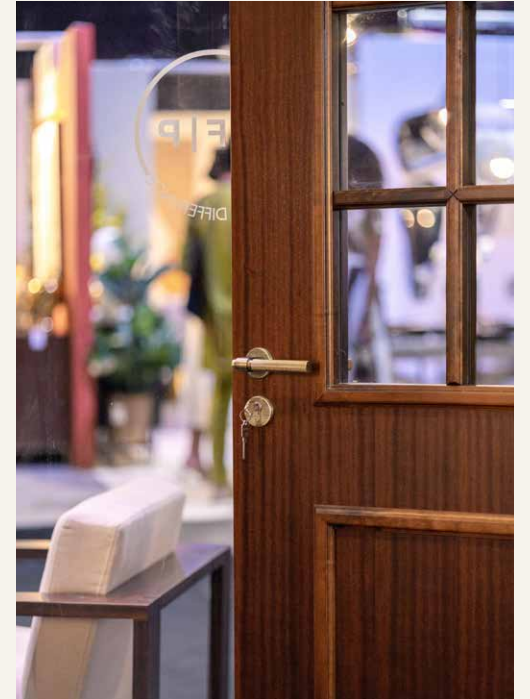

Door with wood moulding on door leaf and architrave

Door with wood moulding that frame a series of wide linear grooves

Door with wood moulding that frame the ornate corner pieces

Single leaf french door with half glass opening

Yorkshire sofa

II

Classic Seating

Yorkshire

A sofa with a rich presence and long history that dates back to the 1700s in a British town called Chesterfield. This sofa is offered by AFP to cater to clients who have a greater taste for classically styled spaces. It is identified by its cylindrical or rolled armrest which are the same height of the backrest and ornamented with deep tufts arranged in a lattice pattern and embellished with upholstered buttons.

Chesterfield

A true adornment to any room it finds itself, Yorkshire is a contemporary twist on classic furniture, specifically from western Europe, France. Yorkshire is ornamented and embellished with tufts accurately pre-positioned and skillfully padded and laced to form diamond-shaped motifs that consolidate into an argyle pattern. The backrest and seat form the seating area which is detailed with a thin finishing cord and mounted on four solid timber legs.

Chesterfield sofa

Classico Chair

As the name depicts, this dining chair was designed to suit the classic style. The classico has four solid timber legs, the two front legs are ornamented with two 'v' grooves that trail around the sides of the up most part of the leg. The two back legs extend upwards to form the backrest, the legs also have a slight curve. Classico is available in two sizes; the normal and large, it is also available with and without armrest.

Milton Chair

An iteration of the famous louis style chair, characterised by its round backrest. Milton has four solid timber legs, the two front legs are ornamented with three 'v' grooves that trail around the sides of the up most part of the leg. The two back legs extend upwards to support the ubiquitous elliptical backrest, the legs also have a slight curve. Milton is available in two sizes; the normal and large, it is also available with and without armrest.

Office Furniture

Custom Desk

Aso Desk

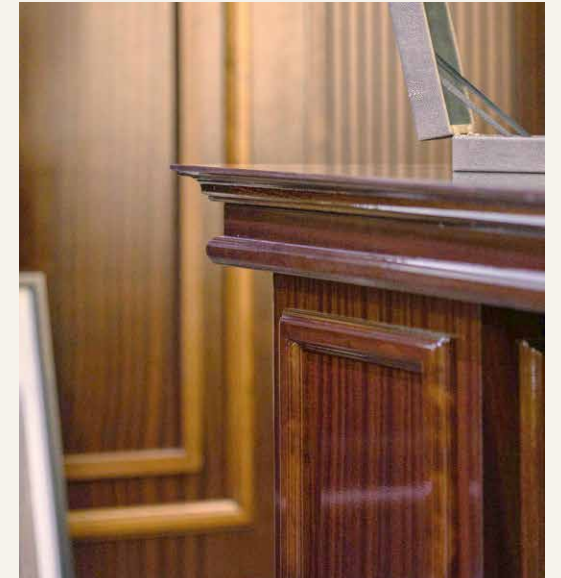

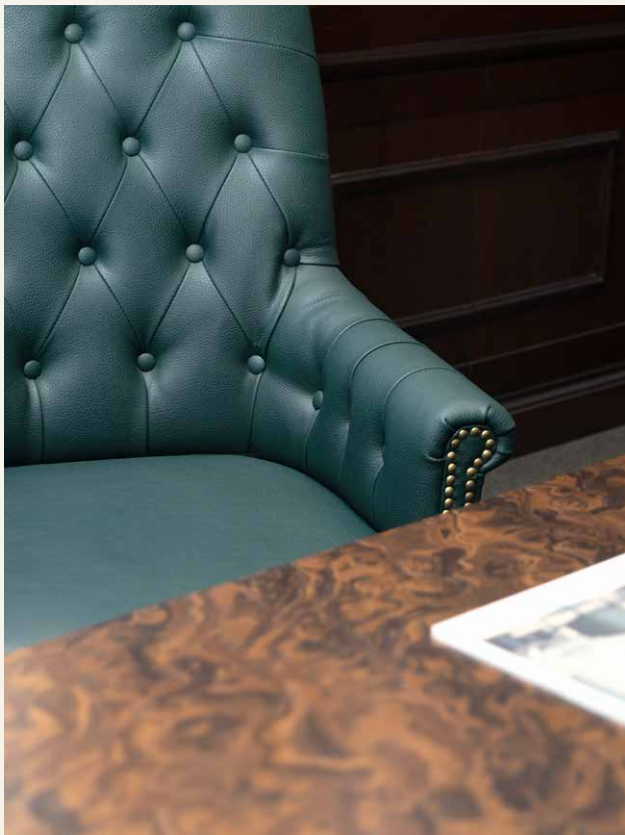

Swivel Chair

Our curation of Classic office furnishing is inclusive of two office desks, a customisable linear desk with two pedestal style legs that house drawer cabinets and a table top with moulded edges and Aso desk an executive linear desk with rounded corners upholstered in leather. We also have a diamond tufted swivel and visitor office chairs to complete the classic office space.

Custom Classic Desk

Above is the classic swivel chair (OC4-CL1) with diamond tufts and pin detailed armrests. The chair is complete with a star base on castor wheels, fully equipped with gas lift for height adjustment. The upholstery is readily available in a wide range of colours.

Above and below are different views of the visitor chair that accompanies the classic swivel chair. The design is consistent with its inner backrest tufts, the outer arm and backrest is detailed with gold pins.

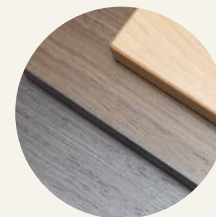

IV

Boiserie

This is the core of the classic style, the Boiserie commonly known as classic wall panels or wall claddings, this is where a space is defined as classic. We make our panels with engineered wooden boards which are detailed with wood mouldings (wood profiles, pilasters and ornate corner pieces), engravings and decorative sheets such as leather or wallpapers.

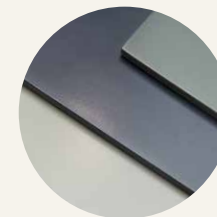

The panels are available in a myriad of solid colour surfaces as well as the intricate pattern of wood grain from our laminates and luxury veneer collection.

Uni color

Boiserie, Classic wallpanels

Panel in titanium oak veneer with inner and outer frame out of wood moulding

Panel lacquered in anthracite and ornaments in champagne gold

Panel lacquered in moss green and ornaments in yellow gold that frame the luxury wallpaper

Exhibit of single door that was made to blend seamlessly into the arrangement of the wall panel

Wood Moulding

Our wood moulding/ carvings are achieved with natural wood and high precision machining, ensuring the consistency and good quality that have become synonymous with AFP.

V

Classic Cabinets

Our classic cabinet like our other cabinets are modular and made in set sizes and configurations, the cabinet range is complete with wardrobes and different kitchen cabinets. Here the cabinet doors are embellished with wood mouldings and depending on the size of the unit, ornate corner pieces are included punctuated with elaborate cabinet handles. The cabinets are only antique looks on the outside though, like any of our storage units these are fully fitted with state of the art accessories like soft closing systems and blind storage solutions.
